Miami Lakes, Florida 33014

School #M070512

Dear ██████████:

At the August 2025 meeting, the Accrediting Commission of Career Schools and Colleges (“ACCSC” or “the Commission”) considered the previous decision to place the school on Probation with regard to the Application for a Change of Location-Parts I/II submitted by Advance Science International College located in Miami Lakes, Florida. Upon review of the June 27, 2025 Probation and the school’s response, the Commission voted to vacate the Probation as part of the review process for the Application for a Change of Location-Part II as required by accrediting standards.² The review of the substantive change will continue upon a demonstration that the stipulation stated below has been satisfied.

Stipulation:

Advance Science International College must demonstrate that the school has maintained continuous operation³ providing education and training to students in accordance with its primary educational objectives or that the school has maintained its ability to meet its obligations to students on an ongoing basis (*Section I (G)(2)(b), Rules of Process and Procedure, Standards of Accreditation*). As part of the school’s change of location, Advance Science International College made the decision to temporarily cease enrollment ahead of the Spring Semester 2025 term (January 6, 2025 to April 30, 2025) in anticipation of a potential change of location. Additionally, based on lease negotiations, the school decided to postpone the Summer Semester 2025 term from May 1, 2025, to July 1, 2025. In the July 18, 2025 response to the June 27, 2025 Probation, Advance Science International College provided three enrollment agreements for students in the Radiologic Technology (Associate in Science) program with an anticipated start date of July 30, 2025. As such, at the time of the response, the school had not yet resumed operations at the new location. Therefore, the school must submit documentation to demonstrate that classes have resumed at 15485 Eagle Nest Lane, Suite 210, Miami Lakes, Florida 33014. Upon demonstration of operation at the new location, the Commission will complete the review of the Application for a Change of Location-Part II and the required on-site evaluation.

RESPONSE REQUIREMENTS:

By applying for accreditation, a school accepts the obligation to demonstrate continuous compliance with the *Standards of Accreditation*. While the Commission employs its own methods to determine a school’s compliance with accrediting standards, the burden rests with the school to establish that it is meeting the standards. The Commission’s deliberations and decisions are made on the basis of the written record and

¹ The school has submitted an Application for a Change of Location-Part II and is no longer operating at this location.

² The accreditation process provides an opportunity for an institution to demonstrate its commitment to continuous improvement. Accordingly, the Commission’s final decision letter on this matter will include an ACCSC Institutional Enhancement Enclosure which lists suggestions deserving the school’s immediate attention and action.

³ The term “continuous operation” means a school operating without cessation – with the exception of regularly scheduled breaks, vacation periods, or an approved change of location – providing education and training to students in accordance with its primary educational objectives(s) (*Section I (A)(11) Rules of Process and Procedure, Standards of Accreditation*).

thus a school must supply the Commission with complete documentation of the school's compliance with accrediting standards.

Advance Science International College must provide a response to the items expressed above that provides the information requested along with any additional information that the school believes supports a demonstration of compliance with accrediting standards.⁴ If the school's response contains documentation that includes personal or confidential student or staff information that is not required for the Commission's review (e.g., social security numbers, dates of birth, etc.), please remove or redact that information.

Advance Science International College must upload the school's electronic response directly to ACCSC's College 360 Database. The ACCSC College 360 database can be accessed by [clicking here](#). Please note that the password utilized by the institution to access the Annual Report Portal is the same to access the School Submission section of the College 360 database. The Instructions for College 360 DMS Submissions can be found [here](#). A detailed overview on how to upload a school submission can be found [here](#).

Keep in mind, the school's response must be prepared in accordance with ACCSC's Instructions for Electronic Submission (e.g., prepared as one Portable Document Format ("PDF") file that has been prepared using Adobe Acrobat software (version 8.0 or higher) and which has a .pdf extension as part of the file name). The school will receive an e-mail confirmation that the file has been received within 24 hours of the submission.

The school's response must also include a signed [ACCSC Stipulation Response Cover Sheet](#) attesting to the accuracy of the information, and be received in the Commission's office **on or before September 4, 2025**. If a response and the certificate attesting to the accuracy of the information is not received in the Commission's office **on or before September 4, 2025**, the Commission will consider further appropriate action.

For assistance with the password or for any other questions regarding the electronic submission requirements, please contact Maurice Gatewood at mgatewood@accsc.org or 703.247.4525. Please note that any password requests to access College 360 must be made by the school director, or designated member of the school's management team, via e-mail.

For further assistance or additional information, please contact Alicia DeMartini at ademartini@accsc.org.

Sincerely,

Michale S. McComis, Ed.D.
Executive Director
